William S. Davis

Air Traffic Organization

Vice President, Safety

As the Air Traffic Organization's Vice President for Safety, William S. Davis directs the ATO's internal safety and quality assurance function. He also leads the effort to build the ATO's internal safety management system, working with the FAA's Safety and Regulatory organizations.

Previously, Davis was the Director of the Office of Runway Safety, with the mission to reduce the severity and frequency of runway incursions in the National Airspace System.

Davis's extensive safety experience includes serving as the Deputy Associate Administrator for Civil Aviation Security and Chief, U.S. Coast Guard Aviation Safety. He is an airline transport pilot rated in multiengine jet, turboprop and helicopter aircraft with more than 20 years of domestic and international flying experience. He was an aircrew member with FedEx, conducting air cargo operations, and he directed aviation operations in Miami, Fla. at one of the Coast Guard's largest and busiest air stations.

Davis earned his bachelor's degree from Florida State University and his master's degree from the United States Naval Post Graduate School.
